CANADIAN COINS

The following consignment of Canadian coins, while surprisingly broad in scope, contains some quite nice pieces. In cataloguing them a **conscious effort** was made to be **conservative** in estimating condition. Where copper and bronze pieces have been described as "cleaned", it should be understood that the word does not mean that the coins have been crudely scrubbed with scouring powder. Perhaps "re-colored" gives a better idea of the cleaning process used by the owner. Many coins in this category have been definitely improved in appearance as a result.
